

Eric Khang'ati

Front-End Developer

✉ ekhangati@gmail.com ☎ +254720773895 🏠 erickhangati.dev 🌐 github.com/erickhangati

Summary

Highly motivated Frontend Developer with a strong foundation in HTML, CSS, JavaScript, React, NextJS and TypeScript. Focused on writing efficient and effective code to deliver visually appealing and user-friendly websites.

Proficient in creating responsive and interactive applications while ensuring a seamless user experience.

Committed to continuous learning and improvement, eager to work on challenging projects and collaborate with experienced developers to enhance technical skills.

Initially, I come from a WordPress background where I spent many years building websites. After recently expanding my skillset, I look forward to new opportunities that are outside WordPress and specifically on JavaScript technologies.

Relevant Experience

Kenya Climate Innovation Center (KCIC)

2019 – Present | Web Developer – Part Time
